		5:30 - 6:30 PM	Networking Reception
		6:30 PM	Student Challenge Bowl

Sunday, November 17th

7:15 - 7:45 AM	Breakfast & Registration
7:45 - 9:45 AM (2 CME)	Workshop: Splinting and Casting: avoiding pitfalls and how to do it right Mike Baldwin, PA-C; Peter Gruca, MA, PA-C This is a two-hour interactive orthopaedically oriented course involving radiographic review of fractures, followed by a splinting workshop. By the end of the session the participant will be able to identify, describe, select and correctly apply the appropriate splint/cast for the particular fracture.
10:00 AM - 12:00 PM (2 CME)	Workshop: Peripheral Mononeuropathie Robert Glasgow, DC, FIAMA This workshop will teach attendees the pathophysiology, proper diagnosis, and effective treatment and management of peripheral mononeuropathies in a primary care setting. Special emphasis will be put on hands-on instruction of diagnostic exams and the therapies used to treat peripheral mononeuropathies so that clinicians are equipped to either treat patients themselves or refer appropriately.
10:00 - 11:30 AM (1.5 CME)	Workshop: The Art of Breathing Barbara Morrison, PA-C, RYT-200 Join Barbara in this workshop to learn breathing techniques that can help to reduce the effects of chronic stress. Living as we do with constant external stimulation and distraction negatively impact all areas of our health and well being. With simple movements and the use of yogic breathing, teach patients how tap into their own ability to heal.
